

RENEGADE FE

Solutions for Low Volume Irrigation—IRON

Line cleaner formula designed to meet the challenges caused by cationic compounds and minerals, such as: Iron, Calcium, Manganese, and most of their naturally occurring isotopes.

DESCRIPTION:

RENEGADE FE is a concentrated formula of proprietary ingredients designed to reduce emitter clogging and improve water flow in low volume irrigation systems.

DIRECTIONS FOR USE:

RENEGADE FE is formulated to be injected into your mainline irrigation. It is designed to be automated at pump start and injects during the entire irrigation event. Pumps settings will vary depending on water usage and water quality. Consult your Account Representative for specific usage and treatment rates.

KEEP OUT OF REACH OF CHILDREN

IT IS THE USERS RESPONSIBILITY TO DETERMINE CONDITIONS FOR THE USE OF THIS PRODUCT AND TO ASSUME LIABILITY FOR LOSS, INJURY, DAMAGE OR EXPENSE RESULTING IN IMPROPER USE. Refer to product Safety Data Sheet for further safety and health information

SIGNAL WORD:

This product contains no substance which, at their given concentration, are considered to be hazardous to health.

WARNING HAZARD STATEMENTS:

None
